

FOR IMMEDIATE RELEASE

**Industrial Video & Control Introduces Certified Class I Division 1 Video Camera
Designed for Outdoor, Hazardous Areas**

**APTZ-3045-04 is the newest addition to IVC's line of certified cameras,
offering excellent performance at a low price point**

Newton, MA – September 10, 2015 – Industrial Video & Control (IVC) announced today the availability of its APTZ-3045-04 industrial video camera, designed and certified for hazardous environments. The camera offers outstanding low-light performance in difficult, outdoor conditions and is available at a low price point.

IVC sells its line of Class I Division 1 certified video cameras to customers who demand high-quality video in areas where ignitable concentrations of gases or vapors exist. Devices classified as Class I Division 1 must also be incapable of causing ignition of a mixture of flammable or combustible material. IVC's line of Class I Division 1 video cameras meets this rigid standard. The APTZ-3045-04 was tested and certified by Intertek.

“The APTZ-3045-04 gives our petrochemical customers an extremely cost-effective Class I Division 1 PTZ camera,” said Norm Fast, IVC's CEO. “Our certified cameras are used for monitoring pipelines, drilling operations, and production facilities. These cameras are also being used successfully in aerospace and other industries.”

The APTZ-3045-04 is a rugged, high-resolution, analog, color video camera and includes an optical zoom ratio of 36x. This pan-tilt-zoom camera is housed in a Class I Division 1-rated stainless-steel enclosure.

When used with IVC's Relay Server or Longwatch camera management software, the camera becomes part of a comprehensive process and safety monitoring system. IVC's software includes features to integrate camera video with SCADA systems in place. The APTZ-3045-04 is shipping now.

About Industrial Video & Control Company

Founded in 2001, Industrial Video and Control is a leading supplier of cameras and video systems specifically designed for industrial applications. An ISO 9001 certified company, IVC provides IP-based video solutions by combining high-quality cameras, enclosures, and software for industrial, commercial, and military applications. IVC's success in the market has been driven by high-quality products, cost-effective solutions, and outstanding service. Based in the greater Boston area, IVC provides industrial video solutions to customers around the globe.
